 - **Tools & Platforms:** Visual Studio Code, GitHub
 - **Programming Languages:** C++, Python
 - **Soft Skills:** Team Collaboration, Problem Solving, Time Management, willingness to Learn
-

Education

Bachelor of Computer Applications (BCA)

Maharaja Surajmal Institute, Delhi

Expected Graduation: June 2026

Projects

StudySync – Landing Page Website

HTML | CSS

Developed a responsive and modern landing page for "StudySync" using HTML and CSS. The design includes a testimonial section, a newsletter subscription form, and a clean UI optimized for all devices. Focused on consistent layout, smooth responsiveness, and clean typography using the Helvetica World font, enhancing readability and user experience.

LeetMetric – LeetCode Progress Tracker

HTML | CSS | JavaScript

Created a web app that shows how many easy, medium, and hard LeetCode problems a user has solved by entering their username. Used a proxy URL to fetch LeetCode data via API, which requires hourly activation. Built a responsive UI and handled dynamic data display using JavaScript.
